

Mahatma Education Society's
PILLAI HOC COLLEGE OF ENGINEERING & TECHNOLOGY, RASAYANI
Department of Electrical Engineering

Internship Details A.Y. 2016 - 2017

Pillai HOC College of Engineering and Technology has an integrated Training and Placement Cell. This cell has the requisite infrastructure and human resources support for its effective functioning. The prime function of the Cell is career development process for the students of PHCET which includes awareness about the self-development, opportunities in the market for – jobs and higher studies, identification and coordinating with Companies for Campus recruitment.

Students of Electrical Department are participating in multiple programs conducted for career guidance across all the disciplines for overall development of the students to start their professional career.

Placement process is focussed on the Final Year students of all branches, at the start of VII semester. It is usually in the month of August, every year.

Before reaching this stage they students are encouraged to complete some Internships in companies or industries after their Third year completion which means after Sem VI.

Though not mandatory, PHCET encourages all students to undertake internship during the free times. We encourage all the students to do the internship at various places. Placement cell maintains all the records about the internship done by the students.

The aim of the internship is

- To help students to meet workplace and self discipline
- To give understanding of practical application, academic principles and thus add relevance to curriculum
- To develop analytical, problem solving, practical and presentation skills
- To appreciate commercial, time, practical and human restraints at work
- To develop personal skills such as self-management, working in teams, relating effectively to others and customer/client relationships, etc.
- To develop career aspirations and decision making about ones future.
