4 Courses

- AWS Fundamentals: Going Cloud-Native
- AWS Fundamentals: Addressing Security Risk
- AWS Fundamentals: Migrating to the Cloud
- AWS Fundamentals: Building Serverless Applications

24.09.2020

Babita Vaibhav Bhagat

has successfully completed the online, non-credit Specialization

AWS Fundamentals

In this Specialization, learners gained proficiency in essential concepts, services, and use cases within the Amazon Web Services (AWS) cloud ecosystem, including core AWS services and key AWS security concepts. The Specialization also covered fundamental strategies for planning and migrating existing workloads to AWS and how to build and deploy serverless applications with AWS. Learners are given opportunities to solidify their understanding by engaging in various hands-on labs and exercises throughout the Specialization.

AWS Fundamentals

The online specialization named in this certificate may show on multiple form courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment in this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

5 Courses

- Programming for Everybody (Getting Started with Python)
- Python Data Structures
- Using Python to Access Web Data
- Using Databases with Python
- Capstone: Retrieving, Processing, and Visualizing Data with Python

05/22/2020

Dr. Divya Y. Chirayil

has successfully completed the online, non-credit Specialization

Python for Everybody

This Specialization builds on the success of the Python for Everybody course and will introduce fundamental programming concepts including data structures, networked application program interfaces, and databases, using the Python programming language. In the Capstone Project, you'll use the technologies learned throughout the Specialization to design and create your own applications for data retrieval, processing, and visualization.
